ABOUT ME

Hey, I'm a mechanical engineering student from Izmir, and I'm really into technology and design. I've been teaching myself front-end programming in my spare time and love creating cool websites. My goal is to become a Full Stack programmer and bring a fresh perspective to software development. Excited to keep learning and collaborating with other awesome professionals in the field!

LANGUAGES

Turkish - Native

English - B2

HOBBIES

Playing guitar

Fitness

Ice skating

Reading classic novels

PROJECTS

GPT3
